

# File IQ Premium

Powerful data intelligence across your Nasuni environment

## / INTRODUCTION

Managing enterprise file data is not a storage project; it is a financial and operational strategy. Cost optimization and file intelligence are core properties of the Enterprise File Data Foundation.

Nasuni is the intelligent file data foundation for enterprises where files are mission-critical, unifying operations at the core file layer to deliver control, security, visibility, and structured access in one platform that supports both people and intelligent tools. As AI initiatives increase pressure on file systems, lack of visibility and structure becomes a barrier to scale.

File IQ Premium is the intelligence layer of the Nasuni Platform, purpose-built to make enterprise file data visible, measurable, and continuously optimized for:

- Visibility into file data growth and risk exposure
- Clear understanding of file lineage and ownership
- Reduced noise from redundant and stale data
- Optimized data foundation for AI retrieval

It combines core file insights with advanced security, compliance, and analytics so teams can act with confidence, maximize their Nasuni investment, and drive real business outcomes.

## UNLOCK TRUE DATA INTELLIGENCE FOR YOUR TEAM

**Complete visibility:** Track usage, user behavior, and access patterns across volumes and edge appliances.

**Proactive alerts:** Strengthened file security and help spot abnormal activity early so you can respond quickly.

**Discover actionable insights:** Analyze trends, access control lists, and storage growth to enable smarter operational planning.

**Control costs:** Align storage usage and improve forecasting with chargeback ready dashboards.

**Accelerate investigations:** Advanced filtering surfaces exactly what matters, reducing effort and response times.

**Optimize storage:** Track file activity trends to identify stale data with last accessed and last modified insights.

**Advanced reporting:** Simplify compliance burdens with comprehensive reporting and detailed audit reports.

**Interactive dashboards:** Over 20+ pre-built dashboards purpose built to help you discover actionable insights quickly.

## / VERSION COMPARISON

Nasuni File IQ is available in Basic and Premium versions:

Premium	Basic
<b>All functionality in the Basic version, PLUS:</b>	<b>Deployed for free and gain visibility into:</b>
Proactive alerting	File system, activity, and events
Comprehensive reporting	Volume monitoring
Advanced filtering	Inspector for usage forensics
Flexible data retention	Preset data retention window
Granular chargeback reporting	Standard chargeback reporting
20+ pre-built dashboards	Limited dashboards access
Allows up to 48 volumes per appliance	Cannot exceed 10 volumes per appliance

## / DASHBOARD BREAKDOWN

Five categories of interactive dashboards provide deep visibility and data that empower IT to tackle growing enterprise demands.

Category	Dashboard	Premium	Basic
ACTIVITY	Directory summary	✓	✓
	Group drilldown	✓	✓
	Edge appliance and volume heatmap	✓	✗
	Group summary	✓	✓
	Activity summary	✓	✓
	User directory access	✓	✗
AUDIT	Events dashboard	✓	✓
	Inspector dashboard	✓	✓
METADATA	Advanced filtering	✓	✗
	Global file lock directories	✓	✗
	Volume last accessed	✓	✗
	Volume last modified	✓	✗
	Volume explorer	✓	✗
	Volume stats	✓	✗
	Volume usage	✓	✓
	Volume utilization	✓	✓
	Volume version explorer	✓	✗
	Volume summary	✓	✓
VISIBILITY	Databases support	✓	✓
	Service support	✓	✓
	System status	✓	✓
REPORT	Report history	✓	✗

## Customer Testimonials

The world's biggest brands are embracing data intelligence, visibility, and protection with Nasuni. Preparing their unstructured data for the future, while protecting their businesses today.

"Nasuni File IQ Premium has transformed our file management by instantly identifying our most-accessed folders and alerting us to over-capacity issues before they become problems. When we faced a crisis with hundreds of mysteriously deleted files, File IQ Premium delivered the answers we needed -who, when, and why-in under 60 seconds, turning what could have been a nightmare into a quick resolution."

**GLENN KRONICK**, Director of Information Technology-  
Network/Infrastructure, PMC

## / FILE IQ DEPLOYMENT MODEL

Nasuni File IQ is deployed within a Nasuni environment, much like a Nasuni Edge Appliance (NEA), running on a locally deployed hypervisor or on a cloud VM. It gathers event data from NEAs and file metadata from your connected volumes, to deliver insightful dashboards and reports.

## / PRICING

Nasuni File IQ Premium is offered at different price points based on capacity-based tiers, with the flexibility of deploying as many File IQ devices as required based on the size of your system for one price.

## / SUMMARY

With Nasuni File IQ Premium, Nasuni addresses the growing demand for advanced file analytics and management tools within the enterprise. With visibility, proactive monitoring, important event notifications, and flexible control over your growing Nasuni file data management system, you are optimally positioned to get the most value from your data.

## / LEARN MORE

To learn more visit [nasuni.com](https://nasuni.com).

Nasuni is the file data foundation for large enterprises where files are mission-critical for both people and AI. The work that drives modern organizations lives in files, the most operationally critical segment of unstructured data, including designs, project documentation, financial and compliance records, media assets, and the countless versions that evolve across distributed teams.

We help our customers manage, protect, and activate that content so IT can continuously reduce cost and risk, while teams and the AI that supports them become more productive through fast, governed access to the right information when and where they need it.
